Dear Parent/Carer

Covid 19 – Safe School Community Guidance

We have had a significant amount of parental/carers concerns regarding a small minority of our school community who are not following the guidance. It is imperative that we all consistently adhere to the following guidance at all times in and around our school grounds.

There are some important steps that you can take to support the safety of our school community.

- Wear a face covering, both at drop off and pick up time, within the school grounds
- Reduce congestion at pick up/drop off time. Please limit it to one adult at drop off/pick up time
- DO NOT congregate at the gates at any time
- Keep 2 metres away from other adults, whether you are waiting for your child or walking to or from school or nursery and avoid gathering in groups with other parents. (Even if you can maintain 2 metres distance you may create congestion that makes it difficult for others to keep a safe distance when they pass.) This is very important
- Avoid car shares and limit use of public transport
- Be vigilant for any symptoms in your household, and follow the Test and Protect guidance if anyone displays symptoms. DO NOT send your child to school if you or any member of your household are displaying symptoms/while waiting for a test/waiting for results.

Covid 19 – Self Isolation

I would like to take this opportunity to remind you of the general advice currently in place for everyone: If anyone in your household develops symptoms of COVID19 the symptomatic person should self-isolate and be tested as soon as possible. Everyone else in the household should also stay at home if someone you live with or someone in your extended household has symptoms. The symptoms include:

- a high temperature or fever
- a new continuous cough
- a loss of or change in sense of smell or taste.

Kind Regards

Michelle MacPhee
