

P1 Parent Workshop

Attention future P1 Parents ...

On Thursday 3rd of September we are scheduled to have our P1 Parent Workshop. This is a really nice time to complete a short activity with your child in their new class, see if you can spot their new friends, to spend some more time with your child's teacher and to see your child in learning mode!

Important

To complete the activity there is a little preparation required. We need you to use the time from now to gather some memories that can be taken into school on the day or handed in beforehand. The memories should be of things from nursery and in the summer leading up to Primary 1. The memories can be things like photographs of your child in nursery or completing a summer activity, fliers/photographs from places you have visited, instructions from games your child played in the summer, recipes from baking you did together, certificates your child has earned in nursery or clubs, small pictures your child has drawn etc. Be as creative as you like. This activity will be completed on paper (normally an A3 size) so please ensure your memories can be glued down. It is a good idea to collect your things in a small bag that should be labelled with your child's name.

Happy collecting! We look forward to seeing you then 😊
